

PRESENTATION DESIGN

Premium Presentation Design Portfolio

High-end decks • Pitch storytelling • Data visualization

SHEILA WANJIGI

Turning complex information into clear visual stories

A focused sample portfolio demonstrating presentation structure, visual hierarchy, data storytelling and premium layout thinking.

CAPABILITIES

What this portfolio demonstrates

Corporate decks • Pitch decks • Data visualization • Visual storytelling • Presentation systems • Animation thinking

Designed around clarity, hierarchy and audience understanding.

Fintech pitch deck — concept

Fictional investor narrative: problem → solution → market → traction. Design focus: one message per slide, strong section transitions and KPI-led storytelling.

The problem → solution narrative

PROBLEM: Payment workflows are fragmented.

SOLUTION: One dashboard for every payment.

Storytelling move: reduce the message to a before/after contrast.

Traction slide — data visualization concept

48% faster reconciliation | 31% fewer manual steps | 2.4× monthly usage growth
Illustrative data created for portfolio demonstration.

CASE STUDY 02

Corporate strategy deck — concept

A fictional annual strategy presentation built around three priorities: Customer, Product and Growth.

Executive pattern: headline → evidence → implication → next action.

Roadmap — making execution visible

Research → Prototype → Launch → Scale, arranged across a simple quarterly timeline.

CASE STUDY 03

Data visualization dashboard — concept

Fictional sales dashboard with revenue, orders, average order value, growth, trend and category mix.

Goal: make performance data easier to compare and act on.

Information hierarchy

LEVEL 1: What changed?

LEVEL 2: Why does it matter?

LEVEL 3: What should we do?

The visual hierarchy guides the audience from insight to action.

Company profile — concept

Fictional company profile focused on three questions: Who are we? What problem do we solve? Why should the audience care?

Concise storytelling with premium editorial structure.

Typography, spacing and visual consistency

Headline / 28–40 pt

Body copy / 14–18 pt

Labels / 9–11 pt

Neutral base + one primary accent + one highlight.

WORKFLOW

From brief to presentation

01 Understand → 02 Structure → 03 Design → 04 Refine → 05 Deliver

Audience and goal → storyline → visual system → quality pass → final presentation-ready assets

QUALITY CHECKLIST

Before a deck is delivered

One clear message per slide.

Takeaway-led headlines.

Readable charts.

Consistent typography and alignment.

Visuals support the story.

Readable at presentation distance.

A repeatable final review.

PORTFOLIO NOTE

Concept work

These projects are concept pieces created to demonstrate presentation-design skills.
They are not presented as paid client work.
